

FUSION SPA 230

cm 230x180 h 66.5

Dati tecnici Technical features	
Max contenuto d'acqua Max water capacity	1000 L
Jets idromassaggio Whirlpool jets	18
Dati dimensionali Dimensional features	
Volume d'imballo Packaging volume	3.7 m ³
Peso a vuoto Dry weight	210 kg
Peso con acqua Wet weight	1210 kg
Caratteristiche Elettriche Electrical features	
Voltaggio Voltage	220 / 380 V
Amperaggio Amperage	22 A (220V) 3x16 A (380V)
Frequenza Frequency	50Hz
Motore idro Whirlpool engine	1.35 kW 1x2 speed
Pompa di ricircolo Recirculation pump	0.38 kW
Riscaldatore Heater	3 kW

Disegno tecnico / Technical drawing

Installazioni disponibili / Allowed set up

centrostanza
standalone

centrostanza ad incasso
built-in standalone

cm 230x180 h 66.5

Technical drawing of a square plate with the following dimensions and features:

- Overall width: 230
- Overall height: 180
- Distance from left edge to center of circular feature: 155
- Distance from center of circular feature to right edge: 75
- Distance from bottom edge to center of circular feature: 18
- Distance from bottom edge to the bottom-left corner of the plate: 50
- Distance from the right edge of the plate to the right edge of the drawing area: 50
- Circular feature with diameter $\varnothing 18$
- Three colored circles inside the circular feature: AF (blue), SC (green), and QE (red)
- Label "lato impianti" (inspection side) with an arrow pointing to the bottom edge of the plate.

FUSION SPA 230

cm 230x180 h 66.5

Installazione fuori terra / Free-standing installation

centrostanza : area perimetrale libera obbligatoria 50cm
standalone : mandatory empty perimeter area 50cm

Predisposizione della sede / Preparatin of the installation site

FUSION SPA 230

cm 230x180 h 66.5

Installazione incasso / Built-in installation

A DETTAGLIO VANO INCASSO / INSPECTION COMPARTMENT DETAIL

- A** Vano per ispezione perimetrale di 50cm con pavimento removibile
Perimetral inspection compartment of 50cm with removable floor
- B** Griglie di drenaggio interne
Internal drain grates
- C** Pavimentazione antiscivolo
Non-slip flooring
- D** n.2 griglie Ø15cm per una corretta areazione del vano tecnico
n.2 vents Ø15cm to ensure proper ventilation of technical compartment
- E** Coibentazione: evita danni da gelo e condensa
Insulation: prevents damages from freezing and condensation

NB: si raccomanda che il peso della spa deve scaricare sulla base e non sui bordi.

NB: we recommend to let the spa discharge its weight on the base and not on the edges.

Per ottenere un buon accoppiamento tra la spa e il rivestimento, si consiglia la posa dell'ultima fila di piastrelle (in prossimità del bordo) ad installazione avvenuta.

We advice to fix the last line of tiles near the edge once the installation is finished, the result will be a good match between the spa and the covering.

FUSION SPA 230

Installazione con sollevatore / Installation with lifter

PROVVEDERE AL FISSAGGIO A TERRA DEL SOLLEVATORE SOLO DOPO AVER VERIFICATO LA CORRETTA ESCURSIONE DELLA VASCA.

TO PROVIDE THE LIFTER ON THE GROUND UP AFTER THE EXCURSION TEST WITH THE BATHTUB.

NB.

Il sollevatore è integrato nella minipiscina.

The lifter is integrated with the minipool

L'installazione con sollevatore è **centro-stanza**, nessun lato può essere accostato a muro, va mantenuta una distanza minima di 50cm.

The installation with lifter is in the center of the room, no side can be placed against the wall, a minimum distance of 50cm must be maintained.

(A) VANO ISPEZIONE con pavimento removibile (solo lato impianti)

(A) VANO ISPEZIONE con pavimento removibile (solo sul lato impianti)
INSPECTION COMPARTMENT with removable floor (installations side only)

NOTE:

Per l'installazione a incasso (vedi pag. precedente) prevedere: una griglia di drenaggio interna, una pavimentazione antiscivolo, due griglie Ø15 cm. per garantire una corretta areazione del vano tecnico e una coibentazione per evitare danni da gelo e da condensa.

For built-in installations (see previous pg.) must install: an internal drainage grates, a non-slip flooring, two vents Ø15 cm. to ensure a proper ventilation of the technical compartment and an insulation to prevent damages from freezing and condensation.

! IL PESO DELLA SPA DEVE SCARICARE SULLA BASE E NON SUI BORDI. THE SPA MUST DISCHARGE ITS WEIGHT ON THE BASE AND NOT ON THE EDGES.
